TANUKU AREA POPULATION STATISTICS

BY
U SATYA VARALAKSHMI
G SATWIKA
II BSC(MSCS)

1. INTRODUCTION

The purpose of the project is to study the population of the area TANUKU located in the West Godavari . The study shows the analysis of town population from the past to the future. It also includes the factors affecting the population of the area from past decade. The statistical analysis of the project is significant to understand the population variation in the locality.

2. OBJECTIVE

The objective of the project is to analyse and get a clear idea of the population statistics of the Tanuku area.

Tanuku is a city in West Godavari district of the Indian state of Andhra Pradesh. It is the mandal headquarters of Tanuku mandal.

Tanuku is one of the biggest cities in West Godavari district in terms of **population**.

Tanuku Mandal population in 2023 is 100,559.

POPULATION OF TANUKU

3. METHODOLOGY

Tanuku is Mandal in Andhra Pradesh state, Tanuku Mandal population in 2023 is 100,559. According to 2011 census of India, Total Tanuku population is 76,181 people are living in this Mandal, of which 37,644 are male and 38,537 are female. Tanuku population estimated to be 97,512 in 2022.

Literate people are 54,277 out of 27,631 are male and 26,646 are female. Total workers are 30,572 depends on multi skills out of which 23,277 are men and 7,295 are women.

Total 2,296 Cultivators are depended on agriculture farming out of 2,098 are cultivated by men and 198 are women. 14,649 people works in agricultural land as a labour in Tanuku, men are 11,000 and 3,649 are women.

In this process of methodology we are using the statistical methods which is called the secondary data collected from websites and articles

Analysis

<i>Population</i>	<i>Male</i>	<i>Female</i>	<i>Households</i>
76,181	37,644	38,537	22,056

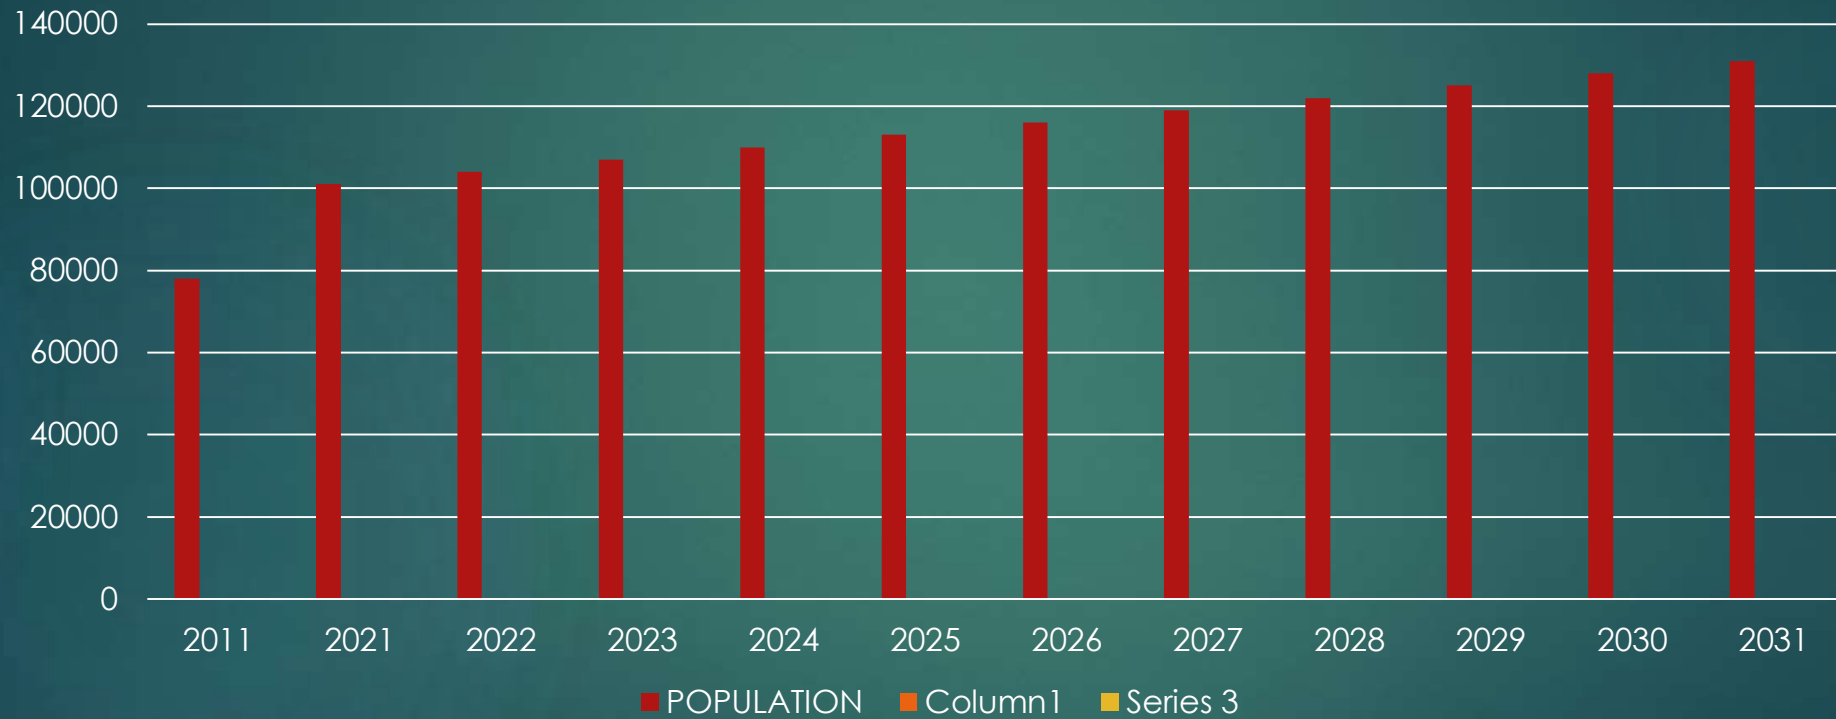

TANUKU CITY/TOWN FUTURE POPULATION 2021-2031

TANUKU CITY	POPULATION
2011	77,962
2021	101,000
2022	104,000
2023	107,000
2024	110,000
2025	113,000
2026	116,000
2027	119,000
2028	122,000
2029	125,000
2030	128,000
2031	131,000

4.RESULTS

BAR GRAPH

5. Discussion

After analysing the population of tanuku , we can observe that population in tanuku is gradually increasing from the past decade. So there are no such factors that affects the population growth in tanuku. As the bar graphs above shows the increasing rate of population in tanuku , there is no problem of decreasing rate of population .

6. Limitations or challenges

There are no more challenges to be faced in this project . But only a single challenge that came across of this project is that **DATA ACCURACY** as the data collected is **SECONDARY DATA** from the available sources. So there is chance of inaccurate data to occur.

CONCLUSION

Based on the study of the project , I conclude that there are no such factors that affect the population of the tanuku area . Also the population of tanuku is gradually increasing from the past to the future. And the sex ratio of tanuku shows that for every 1000 men there are 1031 women .

Hence Tanuku is one of the biggest citites in terms of population in west Godavari district .
